

Business Association of Overseas Vietnamese

US Branch

**The Human Dimension of Technology
Deployment**

BAOOVUS connects businesses in the US and Vietnam

Personalized Business Connections

Work with VN and US companies to identify technologies that are relevant to the needs of Vietnam

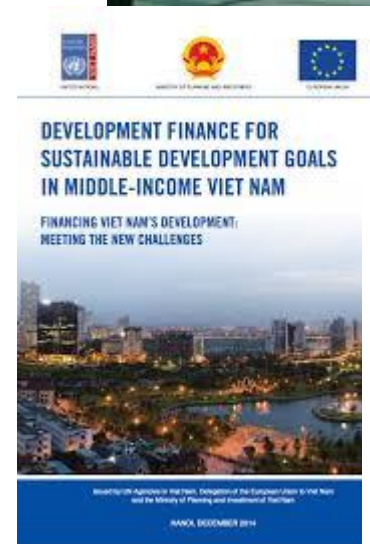

BAOOVUS Provides direct in-country support for foreign businesses in Vietnam

Vietnam needs sustainable technology

- Waste infrastructure and management are not fully funded or implemented.
- Weak infrastructure and growing environment and climate issues hinder Vietnam's ability to provide potable water to a growing population.
- Air pollution is getting worse
 - In Ho Chi Minh City, 60% of the motorbikes do not meet emissions standards and 80% of the industrial emissions are untreated.

BAOO is Creating a New Fund to Support Technology Deployment in Vietnam

- **Target size -- \$Xm**
- **Investment from Vietnamese business groups**
- **Investment from Vietnamese diaspora community**
- **Licensing agreements**
- **Grants and Contracts**
- **Preliminary details will be announced in first half of 2017**
