

**FREDA KORAROME**

Mushroom Expert and Coordinator Eco forestry  
Trainer Innovative Agriculture & Financial Literacy  
Eastern Highlands Provincial Administration,  
Papua New Guinea

I am an ambitious enthusiastic person with the passion to explore and develop agriculture through innovative ways. I have facilitated and conducted trainings with the aim of improving traditional agriculture into simple modern agriculture taking into considerations the health and economic benefits and environment protection. I am also a Financial Literacy Trainer conducting training on household Money Management (Savings & Budgeting) for local communities.

**My Expertise include;**

- Converting grass into substrate for growing edible mushrooms thus adding value to the grass.
- Creating conducive environment for mushroom cultivation all year round.
- Using grass as fodder to feed pigs, ruminants and chicken thus greatly minimizing intake of commercial feed, cost effective and healthier produce.
- Using the grass to rehabilitate flood plains, mine site rehabilitation, erosion control etc.
- Techniques on upland rice cultivation.
- Provide Financial Literacy training on Money Management, household Savings and Budgeting

**Education Background**

Bachelor Degree in Forest Science, PNG University of Technology.

Certificate in Training Course of Juncao Technology for Developing Countries, Fujian Agriculture and Forestry University (FAFU), China.
